Hi Chuck,

I don't mind retrieving files from the sharepoint site, but for large reports with multiple appendices, it is currently cumbersome.

Some groundwater reports have 10 or more appendices.

Let's figure out a way to make this as efficient as possible for retrieval; like placing everything in one linked sub-folder, or include all files in one file that is linked to the email notification.

Alternatively you could make copies on individual flash drives for those who wish to receive electronic only, and mail the flash drives to us. (I don't like this idea as much because I will soon have hundreds of flash drives to keep track of.)

Whatever works for us and you is fine with me.

Keep in mind that we have to keep files organized well for public data/information requests.

We typically provide consultants and John Q with a PC and limited network access to specific files, or with a flash drive with the files of interest.

Thanks,

Jeryl

Dave (BLM) and Jeryl-

Is accessing the EPA website sufficient, or would you like RI Report on CD?

Thanks,

Chuck Zimmerman

And, Jack, as I have stated previously, NDEP also prefers to receive electronic copies only.

Thanks,

Jeryl

Jack, now that BLM has established an electronic admin record, I would prefer receiving data electronically, rather than in paper from now on.

Thank you,

Dave Davis, Geologist

Dave,

I left you a voicemail on this also. Following up on our earlier conversations, have you been able to reach out to stakeholders that typically receive hard copies to see if they truly need hard copies of this draft? Currently we have the following list of stakeholders that would get a paper copy:

Dave Seter  
Dave Davis  
Jeryl Gardner  
Chairwoman McFalls  
Cynthia Ocegura  
Peggy Pauly  
Chairwoman Thom  
Ginny Hatch  
Ken Green  
John McMillan  
Dietrick McGinnis  
Taurus Massey  
Lyon County Library

Others on the distribution list receive electronic copies. We would like to send this report. Please advise.

Thanks,  
-jack
